PROFILE

- Over five years of web development experience
- Front End Development (AS 2,HTML, JS, CSS, Firebug, XML, Prototype, JQuery) experience
- Back End (PHP, ASP, JSP) Development experience alongside database knowledge with Ecom sites
- Content Management System experience with platforms such as Wordpress, Interwoven Teamsite, Microsoft Sharepoint
- Familiarity with Source Control Systems such as SVN and Subversion.
- Enthusiatic team player with the ability to work independently or with minimal supervision.
- Also has an interest in the non-desktop solutions and owns a Motorola Xoom for mobile research.

PROFESSIONAL EXPERIENCE

- Developed web templates, for the Financial Services Commission of Ontario's national secretariats
- (CCIR, CAPSA and Joint Forum) websites redesign through updating the original code design standards and successfully meeting the expected deadline in 2010.
- Translated Word content and images, for web use, on Mindblossom's Preakness redesign, RIDM's website, and OCT's redesign, on time through producing content code and client deliverables, with W3C standards in mind.
- Produced JSP code updates, based on requests and wireframe, styleguides, and mock, and client expectations, for Big Al's and Annin And Co's customer websites at Novator Systems to meet client demands.
- Developed a high profile KPMG Business School Portal, that consisted of 208 pages, which complied to KPMG's content standards, and under Microsoft's SharePoint platform, within 30 days.
- Developed cross-browser compatible CSS in order to launch Chatelaine's redesigned site in 2006.
- Utilized HTML, CSS, and Javascript to make news updates to deliver site content for Flare, Chatelaine, Today's Parent, Glow, and Canadian Business, as well as Mixology's child sites and Performance Challenges' client sites in a timely fashion.
- Implimented changes to the Web Impact-driven rich media e-learning module, for Honeywell, within 3 months utilizing ActionScript 2.0 for multilingual support.
